Promote high-quality development with green technology innovation

About World Gold Conference

World Gold Conference is a biennial grand academic gathering of decision-makers, entrepreneurs, experts and professionals from global gold mining industry and related technology areas. During 2005 to 2020, the conference was held on a rotating basis by Canada, Australia and South Africa. Since 2021, China and the United States have joined the group of organizers. In 2023, the 10th World Gold Conference will be held in China.

Call for Papers

Abstract Deadlines: 2023/04/10

Submit online at

<https://jinshuju.net/f/lymbjg>

Or scan the bar code:

An abstract within 500 words is needed for each paper, and those whose papers are chosen in the initial rounds are supposed to give presentations during the conference.

An academic committee will be responsible for selecting and reviewing the papers. Outstanding works by scholars under 40 will be awarded during the conference. Among them, the unpublished papers will be compiled into the conference proceeding in full text, and recommended to renowned global industrial journals for publication. The published papers will be collected in the official proceeding in the form of abstracts..

Conference Topics

World Gold Conference is set to promote thorough academic exchanges in the following areas:

- Gold Geology
- Green Development
- Gold Metallurgy and Processing
- Smart Gold
- Mine Safety
- Deep Mining
- Comprehensive Utilization of Resources
- Precious Metals
